JUNE/JULY 2018

# A NEW FRONTIER

Set to open in November 2018, Silversands will introduce a new level of modern luxury to the Spice Island, putting Grenada back on the map.

The first resort project on **Grand Anse Beach** in more than 25 years, **Silversands** resort will include 43 suites, as well as nine Hillside and Beachfront Villas for purchase with Grenadian Citizenship included. With its minimalist design, the property is anchored by a stunning 100-meter pool—the longest in the Caribbean. Guests will enjoy access to a full-service spa, an exclusive beach club, and two globally-inspired restaurants drawing on Grenada's abundance of local ingredients and its reputation as the "spice of the Caribbean." Silversands Grenada will unlock the last secret hideaway in the Caribbean with unspoiled originality and wild beauty peppered with pristine white sand beaches, sparkling waterfalls, lush rainforests, and one of the warmest cultures in the Caribbean.
